The California Transportation Commission (Commission) has been charged, by a January 2007 letter from Senator Don Perata, with developing a plan for incorporating strategies to reduce mobile source greenhouse gas (GHG) emissions in the Regional Transportation Plan (RTP) Guidelines. The Commission is authorized under Government Code Section 14522 to prepare RTP Guidelines, in cooperation with the California Department of Transportation and regional transportation planning agencies.

An important aspect of this effort is to ensure that consensus is built with transportation partners and that both the environmental and building/construction communities are engaged in discussions.

The kick-off meeting for the RTP Guidelines Work Group is scheduled for June 28, 2007, from 10:00 a.m. to 3:30 p.m. in Sacramento at the Sacramento Convention Center, 1400 J Street, Room 204.

Please RSVP to Annette Gilbertson at (916) 653-2076 or annette.gilbertson@dot.ca.gov.
